

Facilitator: Gustav Häger
Participants: Gustav Häger, Benjamin Vinnerholt, Gustaf Spjut, Jonathan
Köre, Filip Andréasson
Date: 2018-10-28

1 Meeting Agenda

Group meeting for Basta_Gruppen_LTD, group ID: 19.

2 Objectives (5 min)

Discuss the upcoming presentation.

3 Reports (15 min) from previous meeting

Gustaf has made the controller work properly, contributed to the final report and fixed tests.

Gustav has worked a lot with the Final report, including the Peer Review. He has looked through the program and fixed many issues detected by pmd. He has helped with remodeling the ViewUML. Added pmd to Gradle. Fixed issues with JSON-files and null imagePaths. Fixed minor issues in the program that caused it not to work properly. For example when removing participants from a conversation and issues when modifying the current user. He also helped Filip with creating the presentation and relevant documents for it.

Jonathan abstracted the views and controllers involved with adding and removing participants, as well as breaking out similar code snippets found in the search methods to increase code re-use, thus making these search methods a lot shorter. He also fixed several bugs.

Filip has made a controller for the detailView. Implemented adding and removing contacts from the active user. Added javadoc for many areas of the code. Made a slideshow for the upcoming presentation, made the document that is supposed to be handed in with all user stories, made a document for the presentation with the preliminary content of the presentation. Worked on the UML diagrams for the view and controller.

Benjamin has written tests, fixed bugs, written javadoc, reworked a few functionality problems, worked on UML.

Everybody has worked on the Final report and the Peer review.

4 Discussion items (35 min)

Presentation

- **Presentation**

We will have a presentation on Tuesday and will prepare for it tomorrow Monday.

Facilitator: Gustav Häger

Participants: Gustav Häger, Benjamin Vinnerholt, Gustaf Spjut, Jonathan Köre, Filip Andréasson

Date: 2018-10-28

5 Outcomes and assignments (5 min)

We will all meet tomorrow 2018-10-29 and practice for the presentation and we will also print out the papers that we need to hand in. Filip will email the list of user stories to Mazdak, Joel and Alex.

6 Wrap up

Next meeting will be on Monday (29/10) around lunch.
