1 Meeting Agenda

Group meeting for Basta_Gruppen_LTD, group ID: 19.

2 Objectives (5 min)

Discuss the upcoming sprint
Problems that have come up
Discuss code review / refactoring

3 Reports (15 min) from previous meeting

-All group members have participated in a code review to make sure everyone
is on the same page. STAN has been used for this.
-Filip ran in to troubles with gradle which hindered him from contributing as
much. Most of the issues have been resolved but there are more problems still.
-Everybody has helped in implementing interfaces in the program in order to
make it more modular. This has been especially helpful with the JavaFX "con-
troller" classes which aren't controllers in the MVC sense. They can however
operate as controllers by implementing a interface. Similarly a interface should
probably be implemented for the "view"-part of the JafaFX "controller", how-
ever we need to talk to Mazdak about this.
-Gustav and Benjamin have began modeling the UML-diagram in Microsoft Vi-
sio.
-Gustav has removed .idea and basta_gruppen.iml from the git repo.
-Since there was problems with the database we have decided not to use it for
now, and we will instead opt for a dummy-class. The user story about receiving
messages have been modified because of this, since we can no longer fulfill its
criteria.

4 Discussion items (35 min)

- **Discuss the upcoming sprint**
  -User Stories
  We have now selected the User Stories for the upconming sprint. They
  have been placed in the sprint backlog in Trello.
   -Who does what?
  Jonathan will work with the Enter-button for sending messages. Gustaf
  and Filip will work with displaying contacts and conversations. Gustav
  and Benjamin will work with the login and with changing names on the
  conversation.
  Can be seen in Trello or Figure 1.

-Testing?

5   Outcomes and assignments (5 min)

Please view "Who does what?" under "Discuss the upcoming sprint".
We will also do a more proper code review/refactoring before we begin our work.

6   Wrap up

Next meeting will be at on Thursday (27/9) 13:00 in m1203b.
